

SEKO is one of the fastest growing providers of global freight forwarding and logistics solutions in the industry. Founded in 1976, its network of 47 North American offices and international partners provide transportation and logistics services around the globe and around the clock, seven days a week, enabling customers to manage supply chains with value added operating systems.

SEKO airfreight services include standard, priority, economy, same day, expedited and time-sensitive airfreight options, utilizing commercial airlines and all cargo carriers. The Company also provides surface distribution services, vendor consolidation programs, aviation & aerospace services, home delivery services, pharmaceutical sample delivery programs, government services, trade show services, MedTec services and warehousing capabilities including inventory management as part of its comprehensive logistics offerings both domestically and internationally. Its ocean freight services offer complete import and export options, including LCL and FCL throughout major trade lanes with multiple carriers and flexible sailing dates to meet

shippers' schedules. The Company's North American cross-border freight services include air and surface transportation, as well as customs expertise to move goods in and out of Mexico and Canada quickly and problem free.

The key to SEKO's supply chain excellence is its customer-focused flexibility combined with its entrepreneurial business model that provides cost-efficient transportation options that meet specific client requirements on a global basis. These tailor-made service offerings provide the best cost- and service-efficient logistics solutions available to each customer, enabling them to drive profits and attain strategic business goals, regardless of the industry served.

Today, as global enterprises increasingly outsource demand chain solutions to meet global business strategies, increasingly companies are turning to SEKO to provide them with our hands-on experience and an integrated global logistics network. With IT enhancements such as MySEKO, our customers have access to maximum visibility for management of their supply chain. For more information, visit: www.sekoworldwide.com or call 1-800-228-2711.
