RW Smith Selects CargoWise for Enterprise Software Solution

- ediEnterprise System Provides Greater Capability, Integrated CHB Solution -

Chicago, IL USA, November 8, 2010 — CargoWise®, a globally recognized technology supplier for logistics service providers, recently completed implementation of its ediEnterprise software solution for RW Smith & Company, Inc. Headquartered in Houston, Texas, this established company is recognized as one of the leading customs brokers in the U.S. Gulf Coast region and specializes in customs brokerage and logistics services.

“CargoWise has a long history of providing comprehensive enterprise solutions for logistics service providers and has built its global presence on a commitment to compliance and Customs House Brokerage (CHB) as part of a total logistics solution,” said Gene Gander, Vice President Business Development – Americas for CargoWise. “Today, we’re partnering with customers based solely on the merits of our U.S. Customs Border Protection (CBP) certified customs solution. RW Smith is a dynamic and comprehensive logistics and CHB provider in the global market, and made it clear that a robust CHB solution is a driving force in serving its core market as it grows its business. I couldn’t be more pleased to expand our relationship with a highly recognized and respected organization like RW Smith. Our strongest opportunities to increase our customer base tomorrow are the successful customers we serve today.”

“RW Smith has a tradition of providing industry leading innovative solutions to its customers,” said Shane Garcia, Executive Vice President of RW Smith. “In order to exceed our customers’ progressive business requirements now and in the future, we required a CHB solution that provided robust and comprehensive technology capabilities to drive new business and deliver increased productivity. CargoWise’s ediEnterprise solution provides a single end-to-end solution enabling RW Smith to surpass our customers’ expectations, enhance communications and grow new business. Since implementing ediEnterprise, we have been very pleased with the results we’ve achieved in providing cost efficient end-to-end supply chain solutions for our client base. A key feature that we required in a new system was the ability to create exception reports as well as a Web-based tracking site to replace our previous, limited system. We are delighted with CargoWise’s ediEnterprise solution. It is a progressive and comprehensive customs brokerage and forwarding technology product that is not only cost effective, but is abundantly capable of handling our business’s operating needs now and in the future.”

ABOUT CARGOWISE®

CargoWise is a globally renowned technology provider that delivers an innovative, single platform solution to improve customers’ visibility, efficiency, quality of service and profitability.
